PROFESSIONAL SUMMARY

Computer Science graduate and third-year Digital Engineering student with hands-on project experience across full-stack web applications, backend APIs, AI/ML prototypes, and IoT simulation. Combines project-based technical learning with international student leadership, cross-cultural workshops, and practical custom-PC and customer-service experience. Seeking software development, full-stack/backend, or digital engineering internship and junior opportunities.

EDUCATION

Bachelor of Engineering (Digital Engineering), International Program | Prince of Songkla University, Phuket Campus | 2024-Present | GPA 4.00

- Third-year student in a project-based program spanning software, networks and security, computer architecture, electronics, IoT, project management, and quality assurance.
- Outstanding Academic Performance Award recipient for academic year 2024, first-year Digital Engineering.

Bachelor of Science in Computer Science | Myanmar Institute of Theology, Liberal Arts Program | 2021-2025 | GPA 3.74

- Built foundations in programming, software and web development, databases, operating systems, and computer systems.
- Completed interdisciplinary study in English, Korean basics, management, economics, ethics, human rights, gender and social studies, counselling, religions, peace education, wellbeing, and civic life.

PROJECT-BASED TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, Java, PHP, C++, SQL, HTML, CSS

Frameworks and interfaces: React, Next.js, Tailwind CSS, Node.js, Express, NestJS, FastAPI, Flask, Spring Boot, Laravel, Streamlit

Data and machine learning: PostgreSQL, MySQL, MongoDB/Mongoose, Sequelize, SQLAlchemy, pandas, scikit-learn, TensorFlow/Keras

IoT and workflow: ESP32, MQTT, PlatformIO, Wokwi, Git, GitHub, Postman, Vercel

Hardware and foundations: PC component selection, compatibility planning, custom PC assembly, troubleshooting; networking, cybersecurity, cryptography, and computer architecture coursework

Skills reflect project, coursework, or hands-on work exposure - not claims of professional mastery.

EXPERIENCE

President | PSU Phuket International Student Club | Current

- Lead intercultural student engagement and coordinate with students and university stakeholders around club activities.
- Represent international-student perspectives and encourage inclusive participation in campus life.

Research Intern - Flower Classification | Myanmar Institute of Theology, Liberal Arts Program | Jan-Jul 2025

- Prepared five-class image data and trained and evaluated a MobileNetV2 transfer-learning workflow.
- Documented results and built a Streamlit interface for prediction testing.

Freelance Gaming PC Buyer, Builder and Reseller | Self-Employed / Family Business | Jan 2022-Jul 2024

- Matched parts to customer needs, budgets, and compatibility constraints; assembled systems and performed setup, diagnostics, and troubleshooting.
- Handled sourcing, pricing, negotiation, customer communication, delivery, and basic after-sales support.

Logistics and Delegate Servicing Team Member | AIESEC in Myanmar | Feb 2022-Jan 2023

- Supported youth-led events through logistics, delegate servicing, and participant-facing operations.
- Collaborated across functions and adapted to changing on-site needs.

SELECTED PROJECTS

Real Estate Management System | Team coursework | Next.js, TypeScript, NestJS, PostgreSQL, Sequelize, JWT | 2025

- Contributed to buyer/dealer registration, role-based dashboards, authentication, property listings, and client/API integration across separate frontend and backend repositories.

Cupidy | External contributor | Python, FastAPI, SQLAlchemy, PostgreSQL, JWT | 2024

- Contributed 25 GitHub-attributed commits covering signup/sign-in, user details, photo upload, matching, likes, schemas, models, repositories, and database setup.

Movie Recommendation Prototype | External contributor | React, Flask, pandas, scikit-learn, Streamlit | 2024

- Contributed eight public implementation commits spanning content-based recommendation experiments, Flask integration, React result/detail flows, and a Streamlit test interface.

Portfolio Website | Owner | Next.js, React, TypeScript, Tailwind CSS, Framer Motion, Vercel | 2026

- Designed and deployed a responsive, data-driven portfolio with accessible interactions, motion preferences, theming, metadata, and documented project evidence.

Flower Classification Research Prototype | Owner | Python, TensorFlow, MobileNetV2, Streamlit, OpenCV | 2025

- Built a five-class transfer-learning workflow with preprocessing, model checkpoints, evaluation visualizations, and a small inference interface.

Smart HVAC IoT Controller | Owner | C++, ESP32, PlatformIO, Wokwi, MQTT, DHT22 | 2025

- Implemented COOL, HEAT, and IDLE states, automatic/manual modes, temperature hysteresis, and MQTT publishing in a repeatable ESP32 simulation.

LEADERSHIP AND ACTIVITIES

Selected PSU Delegate - Asian Undergraduate Symposium 2026 | NUS College, Singapore | 6-18 Jul 2026

- Represented PSU's College of Computing in the 'Communities in Action' regional program with undergraduates from across Asia.

JASSO-Supported Participant - Asia Design Global Workshop 2025 | Shibaura Institute of Technology, Tokyo | 31 Jul-7 Aug 2025

- Collaborated in a multicultural design team through ideation, field research, proposal/model development, and final presentation work.

Data Analysis and Visualization Workshops | PSU Phuket with SIT, Sojo, OMU and Shunan | 2024 and 2025

- Joined two international short-term exchanges combining data work, English-language collaboration, presentations, and cultural exchange.

Additional engagement: 230 recorded PSU activity hours (100 required); supporting actor and video editor for the MIT One Billion Rising project; guest speaker for AIESEC's 'Youth & Mental Health' podcast for World Mental Health Day 2023; local youth-community volunteer.

LANGUAGES

Burmese: Native | **English:** Fluent | **Korean:** Basic coursework
